

TIPS FOR SUBMITTING AN ABSTRACT

1. Download and carefully review the Call for Papers document on the website.
2. Collect contact information for co-authors/co-presenters, including name, degrees, address, phone, and email address. You will be required to enter an affiliation to then be assigned to a co-author. If one or more authors come from the same affiliation, you need to only enter it once, and then select it as you add each co-author.
3. You will need to download, complete, and upload the Co-Author Biographical Information form for **each** co-author. Complete this form by including information for each co-author. This form can be downloaded, completed, and uploaded during your submission process.
4. Please note that your submission **will not** be complete until the Biographical Information form is uploaded.
5. Pay attention to the red asterisks indicating required content. Should you miss a required field, you will receive an error notice when you submit the abstract.
6. You will receive a confirmation email for each submission. Please save and/or print the email for your records. It will include the abstract ID number assigned by the system.
